

## New family guidebook St Michael's Church, Ilsington

Following a generous local donation, we have been able to produce a new, informal, family guidebook to help you discover the 800-year-old history of our local church, here in Ilsington. The colour booklet includes activities, timeline and easy to read information about the history of Ilsington and its church. This delightful little guide will be available at 'Merry Medieval' a local history event taking place on Saturday June 10th and there will be a special focus for family groups between 10.30-12 noon when you can explore the hidden doors and staircases of the church, spot the ancient drift lanes from the top of the tower and complete the local family quiz. The booklets are available in the church and are priced just £1.

We are grateful to a team of local people who ensure that the church is open throughout the week during daylight hours; so if you have family and friends visiting, do enjoy discovering history on your doorstep.
