

Ilsington Local History Group

Parishscapes Project

Monday September 11th

IVH Meeting Room 3pm

Our new local history group has now received its start up funding from the *Parishscapes* initiative with Moor Than Meets The Eye (DNP) and we are ready to begin a programme of digitising and cataloguing local archives as well as organising group activities and some outings. The group will meet regularly throughout the late-autumn and winter months, initially on alternate Monday afternoons, but this will be reviewed once the group is up and running.

This first meeting on September 11th is to demonstrate the projects potential and to welcome ideas for expanding the group's outreach to include the planning of local community history events.

All welcome to this informal introduction to an exciting new opportunity for the parish and anyone with an interest in local history. Further details can be obtained from Anne Parkinson, anne@stonebarrow.plus.com
